DECISION

STICHTING BDO¹ ("Opposer") filed on 03 December 2009 an opposition to Trademark Application Serial No. 4-2007-011976. The application, filed by BANCO DE ORO UNIBANK, INC.² ("Respondent-Applicant"), covers the mark 'BDO Padala and Device' for use on *"banking services, financial affairs/services, monetary services, real estate, insurance, investment, remittance"* under Class 36 of the International Classification of Goods³.

The Opposer alleges, among other things, that the mark BDO Padala and Device is confusingly similar to the Opposer's registered BDO marks. According to the Opposer, the Respondent-Applicant's trademark application is contrary to Sec. 123.1, subparagraphs (d), (e) and (f), and Sec. 131.3 of Rep. Act No. 8293, also known as the Intellectual Property Code of the Philippines ("IP Code") and Sec. 6bis of the Paris Convention for the Protection of Industrial Property. The Opposer also claims that the registration of the Respondent-Applicant's mark will diminish the distinctiveness and dilute the goodwill of the Opposer's marks covering goods and services under Classes 35, 36 and 42.

To support its opposition to the subject trademark application, the Opposer submitted the following as evidence:

1. Certified copy of Certificate of Registration No. 4-2002-000146 for the mark BDO & Design;
2. Memorandum of Agreement between BDO International and BDO Alba Romeo & Co. dated 01 June 1998;
3. 2007 International Directory of BDO International;
4. Summary of Opposer's BDO's worldwide trademark portfolio;

² With office address at BDO Corporate Center, 7899 Makati Avenue, Makati City 0726, Metro Manila.

³ The Nice Classification is a classification of goods and services for the purpose of registering trademarks and service marks based on a multilateral treaty administered by the World Intellectual Property Organization. The treaty is called the Nice Agreement Concerning the International Classification of Goods and Services for the Purpose of the Registration of Marks concluded in 1957.

On 06 July 2010, the Respondent-Applicant filed its Verified Answer. In substance, the Respondent-Applicant alleges that its right to the mark BDO has vested under Rep. Act No. 166 (the "old Law on Trademarks") which cannot be impaired by the IP Code, by virtue of being a prior user of the mark since 1977. Its right, says the Respondent-Applicant, is even protected under Sections 165 and 236 of the IP Code. According to the Respondent-Applicant, the Opposer's Certificate of Registration is only *prima facie* evidence of ownership which it sufficiently disputed through voluminous evidence of being the first and prior user of the mark BDO in the Philippines. It also contends that the use of Banco de Oro's initials "BDO" as its trade name is a common banking practice, and that no less than the Bureau of Trademarks has allowed its trademark application.

The Respondent-Applicant likewise claims that the Opposer's registrations for BDO and BDO & Design are not valid there being no actual use of the marks attributable to the Opposer. Also, the Respondent-Applicant argues that the Opposer's mark is not internationally well-known the latter having failed to show or to support the claim of extensive international registration, advertisement and use thereof.

The Opposer filed a Reply on 15 July 2010 and the Respondent-Applicant in turn submitted a Rejoinder on 23 July 2010.⁶ The preliminary conference was conducted and terminated on 01 September 2010. Consequently, the Opposer filed its position paper on 23 September 2010 while the Respondent-Applicant did so on 24 September 2010.

There is no dispute that the competing marks are identical or at least confusingly similar. The goods or services indicated in the Respondent-Applicant's trademark application are also similar and/or closely related to the Opposer's. The issue to be resolved in this case is whether the Respondent-Applicant's trademark application should be rejected on the grounds laid down by the Opposer.

In this regard, this Bureau noticed that the Opposer's case is anchored on its arguments that *first*, at the time the Respondent-Applicant filed the subject trademark application, it already has an existing trademark registration for the BDO (Reg. No. 4-2002-000146), and *secondly*, it is the owner of the mark by virtue of prior use thereof.

Trademark Reg. No. 4-2002-000146, however, was ordered cancelled in this Bureau's decision on IPC No. 14-2008-00017. The cancellation was upheld by the Director General in his Decision of 11 June 2012 on Appeal No. 14-09-55.

With the cancellation of Trademark Reg. No. 4-2002-000146, the instant opposition case has no more leg to stand on. Moreover, the Director General had also passed upon the issue of ownership of the mark BDO, ruling that the Respondent-Applicant has the better right over the mark BDO on the basis of the same facts, records and evidence attendant to this case.

⁵ Marked as Exhibits "1" to "20", inclusive.

⁶ The case was referred to mediation pursuant to Office Order No. 154, s. 2010 (Rules of Procedure for IPO Mediation Proceedings) and Office Order No. 197, s. 2010 (Mechanics for IPO Mediation and Settlement Period). The mediation, however, was unsuccessful.

Accordingly, there is no cogent reason for this Bureau to rule otherwise in this instance.

WHEREFORE, premises considered, the instant opposition is hereby **DISMISSED**. Let the filewrapper of Trademark Application Serial No. 4-2007-011976 be returned, together with a copy of this Decision, to the Bureau of Trademarks for information and appropriate action.

SO ORDERED.

Taguig City, 16 July 2012.
